Section I: Funding Opportunity Description

IA. Background – Introduction

AKT Program (also AKT – LS) is implemented in 16 municipalities¹ with considerable presence of Serbian community. In essence, all three interventions are designed to contribute to expedited inclusion of Serbian community in the institutional and political life in Kosovo and increasing the exchanges between majority and minority communities across all spheres of life. Improvement of small-scale infrastructure and service delivery systems, coupled by increased ability to deliver quality services on the part of local governments and the efficient advocating of community needs and priorities, are encompassed in the project as different dimensions of intervention. These dimensions are expected to lead to improvement of both horizontal linkages across municipalities and vertical linkages with line ministries, through which lives of communities will be improved.

Employment and economic development are also envisaged by the project as key intervention measures aimed at contributing to the overall inclusion of the economies in the 16 beneficiary municipalities. Provision of opportunities for savvy entrepreneurially predisposed individuals and labor force development measures are the two main tools to be used for promoting employment and self-employment in the targeted communities.

In addition, the program will offer assistance to local municipalities to provide services in the most efficient manner, using transparent processes, which resulted in the setting of many standards across all municipalities, such as the creation of annual work plans, Service Improvement Action Plans (SIAPs) and citizen engagement plans. Such assistance was particularly helpful for the newly created municipalities, which did not typically have experienced leadership. This assistance will help target municipalities to continue instituting practical and concrete initiatives that will strengthen the legitimacy of Kosovo's local government system and improve service delivery in the targeted municipalities

IB. Project Description

Advancing Kosovo Together - Local Solutions (AKT - LS) is a three-year project that aims to increase constructive inter-ethnic cooperation and interaction, primarily between the majority Kosovo Albanian community and Kosovo Serb community, which is vital to the security and stability of the Balkans. The AKT – LS is part of the USAID Forward, the new USAID strategy of development aid delivery, where involvement of local know-how and expertise is essential for maximizing aid efficiency. The AKT – LS Project is part of the AKT Program, which aside from the intervention subject to this document, also includes AKT US Project, implemented by Chemonics Inc. The two projects implemented by the AKT US and CDF-led consortium of organizations both contribute to the same development objectives and are expected to cooperate closely in implementing their measures and achieve synergies.

The AKT – LS as a component of AKT Program, has a projected budget of **7 Mil USD**. Of these, a net investment of **5 Mil USD** is envisaged to be implemented as direct grant interventions through three different grant schemes, one for municipalities, one for private sector development, and one supporting civil society efforts and other grassroots inter-ethnic initiatives.

¹ Municipalities include: Gjilan/Gnjilane, Graçanicë/Gračanica, Istog/Istok, Klinë/Klina, Killokot/Klokot, Leposaviq/Leposavić, Mitrovicë e Veriut/ North Mitrovica, Novobërdë/Novo Brdo, Obiliq/Obilić, Partesh/Parteš, Pejë/Peć, Ranilluk/Ranilug, Shtërpçë/Štrpce, Vushtrri/Vučitrn, Zubin Potok/Zubin Potok and Zvečan/Zvečan.

This Request for Grant Applications solicits proposals from existing micro and small enterprises and start-ups in the 16 municipalities covered by AKT – LS Program for activities that may be not limited to:

- Job creation, with an affirmative focus on the employment of non-majority women and youth;
- Activities that support job skills training for non-majority women and youth;
- Creating economic opportunities for non-majority youth and women;
- Expanding business development and access to finance opportunities for non-majority businesses, youth entrepreneurship and women-owned enterprises.

IC. General Criteria for Selection

AKT LS under the Component 2 aims improving economic prosperity and outlook of the 16 targeted communities. Improving the efficiency of the private sector to boost development and generate employment are the two core variables that the proposed action seeks to change. Investment support in core equipment and tools, training, and backstopping support services will be put to the service of private sector as part of the proposed project to eliminate some of the growth barriers that MSMEs face.

A valid proposal under the AKT LS Grant scheme must meet the following criteria:
